
(a) a = 0
(b) a = 1
(c) a = 2
y
x (signal)
(d)
ρ or λ
strength of non-linearity a
ρ (Pearson)
λ (KSG on normal scores)
(e)
λ
strength of non-linearity a
exact = r
KSG on normal scores (maps)
Knuth bins (old production)
Knuth bins on normal scores
rank (equal-count) bins
KSG on raw values
